The Chemical Age

Index to Volume XLIV. January to June, 1941

A

Abstracts, Spectrochemical, 241
Aconitic Acid Resins, 109
Acrolein from Propylene, 113
Activated Clay, Japanese, 155
Alginate Fibres, The New, 39
Alloys, New Steel, 346
Aluminium, Electrochemical Protection of, 207
Aluminium Tanks, Welding Construction for, 369
America, Drums for Transport in, 365
American Chemical Industry Statistics, 237
Amino Acids, Pure, 5
Ammonium Nitrate from Coke-Oven Gas, 207
Apparatus, New, in 1940, 37
Apprentices, Call-Up of, 284
Arbitration Award, Chemical, 371
Armstrong Lecture, The, 72
Asbestos-Neoprene Gaskets, 141
A.S.W. Council Meeting, 305
Australia, Chemicals in, 295
Austria, Nitrogen in, 98

AUTHORS—

Arend, A. G., Gold and the Chemica Engineer, 337
Barron, Dr. Harry, The Plastics Industry in 1940, 28; The Influence of Synthetic Rubber on Plastics, 107; Beniaminov, N., Underground Gasification of Coal, 121; Bentley, A. O., Progress in Synthetic Drugs and Pharmaceuticals, 31; Biske, V., Octane Values, 2; Burman, Lawrence C., Platinum-Clad Equipment, 326; Butcher, C. H., From a Works Maintenance Note-Book, 139; Unit Containers for Transport, 363
"Chemical Works Manager," Bulk Storage of Chemical Liquids, 367; "Chemyst," Judging Coal on its Proximate Analysis, 247; "Chymist," The Pickling of Ferrous Metals, 323; Collingridge, George S., Modern Detergents, 151, 163; Corbett, R. W., Gold and the Chemical Engineer, 337; Cox, D. H. S., Progress in Synthetic Drugs and Pharmaceuticals, 31; Creevey, John, Notes from Works Safety Jottings, 47, 99, 153, 219, 289, 347
Downie, C. C., Economies in White Bearing Metals, 195
Ellis, G. H. S., Patents for Inventions during War Time, 319; Eyles, Desmond, Pottery in War Time, 217
Fellows, C. H., Progress in Feed-Water Treatment, 133; Foxwell, G. E., Thirty Years of Change, 235; Co-ordination of the Carbonising Industries, 333
Howat, D. D., Synthesis of Oils from Industrial Gases — The Fischer-Tropsch and Allied Processes, 57; Intensive Superphosphate Production, 263; New Electrical Devices in the Chemical Industry, 303
Light, Louis, Developments in Colloid Chemistry, 26
Masters, David L., The Spectrograph in Industry, 231; Maxted, E. B., The Nitrogen Industry in 1940, 25; Morris, P., Brick Chimneys for Chemical Works, 306
Neurath, F., Powder Metallurgy, 255
Parrish, P., Conditions in, and Some War Problems of, the Heavy Chemical Industry in 1940, 19
Ranshaw, G. S., The "Total" Treatment of Process Water, 95; Dyestuffs in the Photographic Industry, 290; Metallic Complexes in the Dyestuff Industry, 345; Reavell, Brian N., Maintenance of Evaporators and Driers, 137
Schweig, Bruno, Metallic Films for Front-View Mirrors, 348; Special Correspondent, Storage Tanks, 361

Williams, A. E., Synthetic Rubber in the Chemical Industries, 85

Auxiliary Motors and Control Gear, 38

B

Balance, Micro-Chemical, 291
Beattie-Bridgeman Equation, The, 250
Birthday Honours, 336
Bitumen Extraction from Coal, 6
Black-out, Ventilation in the, 252

BOOK REVIEWS—

Annual Report of the Smithsonian Institution, 156; Annual Reports on the Progress of Applied Chemistry (Society of Chemical Industry), 350; B.D.H. Book of Organic Reagents (British Drug Houses, Ltd.), 369; British Plastics Year Book, 212; Canning Practice and Control (Osman Jones and T. W. Jones), 167; Experiments in Colloid Chemistry (E. A. Hauser and J. E. Lynn), 310; Factory Training Manual (Reginald Pugh), 156; Identification of Molecular Spectra (R. W. B. Pearse and A. G. Gaydon), 338; Industrial Electrochemistry (C. L. Mitchell), 156; Journal of the Electrodepositors' Technical Society, Vol. XVI, 286; Photo-Synthesis (E. C. C. Baly), 60; Plastics in Industry ("Plastes"), 86; Practice of Organic Chemistry, 3rd Ed. (Homer Adkind, S. M. McElvain and M. W. Klein), 297; Principles and Practice of Chromatography (L. Zechmeister and L. Cholnoky), 237; Sampling and Chemical Analysis of Cast Ferrous Metal, The (E. Taylor Austin), 167, 218; Specifications and Methods for Tar Oil Winter Washes (H.M. Stationery Office), 350; Test Book of Qualitative Chemical Analysis, A (Arthur I. Vogel), 156; Works Boiler Plant (F. J. Matthews), 60

Branched-Chain Hydrocarbons, 166
British Association of Chemists, 153, 268
British Chemical and Dyestuffs Traders' Association, 267
British Standards in War Time, 187
Bulk Storage of Chemical Liquids, 367
Business Premises, Damaged, 50
Butadiene Manufacture, 222
Butanes, Halogenated, 6
By-Product Recovery from U.S. Coal, 249

C

Calibrating Horizontal Tanks, 165
Call-Up of Apprentices, 284
Canada, Exports from, 168
Canada's Mineral Resources, 5
Canadian Chemical Industry, 178
Canadian Chemists Confer, 72
Carbon, Activated, from Waste Coal, 321
Carbon Production, Adsorptive, 222
Carbon Tetrachloride, Hazards of, 349
Carbonising Industries, Co-ordination of the, 333
Cellulose Esters, Mixed, 169
Cellulose Fodders, 294
Cellulose Phthalate, 46
Central Register, Chemists and the, 186
Chemical Arbitration Award, 371
Chemical Engineer, Gold and the, 337
Chemical Engineering Group, 296
Chemical Engineer's Claim Fails, 70
Chemical Engineers, The Institution of, 6, 203
Chemical Industry in the "New Order," 222
Chemical Industries, Electrolysis in the, 175
Chemical Industry in Japan, 100
Chemical Liquids, Bulk Storage of, 367
Chemical Matters in Parliament, 64, 88, 101, 123, 138, 154, 169, 205, 224, 272, 283, 309, 371
Chemical Methods, New, 270
Chemical Pack, New, 62
Chemical Plant Extensions, 142
Chemical Stoneware Vessels, 366
Chemical Trade during 1940, 18
Chemical Works, Brick Chimneys for, 306
Chemicals Liable to K.I.D., 88
Chemicals, Protection of, from Gas Contamination, 165
Chemist in 1940, The, 17
Chemists and the Central Register, 186
Chemistry and Wood, 368
Chemistry of Coffee, The, 185
Chemistry, The Institute of, 136
Chimneys for Chemical Works, Brick, 306
China Clay Situation, The, 87
Claim, Manufacturers', 371
Clays, Colour Test for, 188
Coal, Bitumen Extraction from, 6
Coal Gasification, Underground, 349
Coal, Hydrogenation of, 321
Coal, Judging on its Proximate Analysis, 247
Coal, Motor Methane from, 45
Coal Waste, Activated Carbon from, 321
Coffee, The Chemistry of, 185
Coke-Oven Gas, Ammonium Nitrate from, 207
Colloid Chemistry, Developments in, 26

COMPANY NEWS—

Aberdeen Lime Co., 259; African Explosives and Industries, Ltd., 244; Agricultural and Chemical Products, Ltd., 200; Alpha Cement Co., Ltd., 212; Amalgamated Anthracite Collieries, Ltd., 92; Amalgamated Metal Corporation, Ltd., 340; American Viscose Corporation, 172; Anglo-Chemical and Ore Co., Ltd., 373; Anglo-Chilean Nitrate Corporation, The, 181; Anglo-Greek Magnesite Co., Ltd., 200; Aspro, Ltd., 130; Associated Manganese Mines of South Africa, 355; Associated Portland Cement Manufacturers, Ltd., 212

Conditions in, and Some War Problems of, the Heavy Chemical Industry in 1940, 19
Construction for Aluminium Tanks, Welding, 369
Containers for Transport, Unit, 363

CONTROL ORDERS, NEW—

Aluminium and Starch Export Prohibited, 155; Aluminium Scrap, 169; Aluminium Scrap Prices, 143; Antimony Imports, 309; Aqueous Dispersions of Rubber, 322
Benzaldehyde, Phthalic Anhydride, etc., 190; Benzoyl Chloride, 124; Borax and Boric Acid, 268

CONTROL ORDERS, NEW—*contd.*
Caustic Potash and Carbonate of Potash, 64; Central American Accounts, 309; Certain Ores, Asbestos, etc., Export of, 115; Chlorates, 351; Coal Tar Distillation, 73; Coal Tar Products, 190
Dyestuffs, 115
Export Licensing, 169
Fertiliser Exports to Eire, 7; Fertilisers (Sales), 297
Greases and Tallows, Prices of, 190; Greases and Tallows, Splitting of, 115
Invert Sugar and Glucose Prices, 48; Invert Sugar Prices, 115
Laboratory Ware and Chemicals, 48; Lactic Acid, Bentonite, etc., Export of, 373; Lecithin, 190; Light Metal Fabrication, 143; Limitation of Supplies, 241; Liquid Glucose Prices, 241
Machinery, Plant and Appliances, 48; Mercury Prices and Supplies, 268; Mercury Products, 115; Metal Drums and Asbestos, Export of, 336; Methyl Alcohol and Urea, 322; Mica and Sulphur Manufactures, Export of, 241; Molasses and Industrial Alcohol, 87
Naphthalene, 309
Oil and Oil Seeds, Import of, 124
Petroleum Consumption, 268; Potash Compounds, Northern Ireland, 143
Raw Rubber and Carbon Black, 155; Renewal of K.I.D. Exemption, 7
Sodium Products, Salt and Cement, Export of, 322; Starch and Dextrine, 48; Steel for Industrial Alcohol Plant, 241; Sterling Area, Extension of, 208; Storage Facilities, 284; Sugars made "not chargeable," 48; Sulphuric Acid, 155, 297
Vitamin A Manufacture, 351
Zinc Bromide Exempt from K.I.D., 241
Co-ordination of the Carbonising Industries, 333
Cornish Minerals, Development of, 24

CORRESPONDENCE—
